RE: Dodd-Frank Wall Street Reform and Consumer Protection Act regulation of Conflict Minerals

To Whom it May Concern:

Snaptron, Inc. provides customers with tactile dome switch products manufactured from 300 series stainless steel. The tactile domes may be plated with gold, silver or nickel.

To the best of our knowledge, none of the metals procured by Snaptron are conflict metals sourced from mines in the Democratic Republic of the Congo or its adjoining countries. In preparing this response, Snaptron has relied on information provided by its steel and plating suppliers.

Additional information including a reporting template is available at <http://www.snaptron.com/quality/conflict-free/>

A handwritten signature in black ink, appearing to read "Douglas Aeling".
